CAREER OBJECTIVES

I hold a Bachelor's Degree in Library and Information Science from the University of Ilorin (2021). My course of study exposed me to wide range of skills for computing and information management. Among these skills which I chose to self-develop further is the web development skill. Hence, I am seeking an opportunity and ideal environment to employ my acquired skills in building information systems for better decision making.

TECHNICAL SKILLS

Scripting Languages: JavaScript, SQL, PHP

Markup Languages: HTML5, CSS3,

Version Control: Github Repo

Soft Skills:

Communication Skills,

Team work,

research, curiosity.

EXPERIENCE

Robokids Academy Ibadan

Instructor

Jan 2022- Oct 2022

- Instructed ICT modules for web development for an academic session
- Instructed the HTML and CSS summer class for students of Junior secondary class. I instructed the development of front end for applications such as currency converter, student management system.
